

Jumbo Display Alarm Timer Stopwatches

The **Control Jumbo Display Alarm Timer Stopwatches** are Multiple channels that allows for easy independent programming!

Keep an eye on your timer from across the lab with a readily visible, extra-large display. This timer is versatile and can be placed virtually anywhere, simply use the magnetic clip to clip onto your lab coat, stand it up on a shelf, or secure it to any metal surface.

Set this timer to count for any amount of time, up to a maximum of 100 hours. Includes four independent channels, each with a distinct, sixty-second, easy-to-hear alarm. Once the alarm sounds, the timer will count up automatically! This allows you to see any elapsed time at-a-glance.

The handy memory button recalls the last timer setting for convenient repeat use. All four channels have the capability to be used simultaneously, making this timer perfect for multitasking.

Large 3/4" display shows any single timing channel of your choice, along with the clock. High decibel alarm sounds for one minute or can be silenced with the push of a button.

Calibration certificate is included with CTL5004C.
